Hi Jen - Yes, a disconnection petition has been submitted. I just forwarded it to you. It hasn't been advertised as far as I know, but it should be advertised soon. As soon as I see the advertisement, I will let you know. The petition has several maps attached - you can see that the boundaries include the main highway going into Bluff and a few smaller roads. It probably includes other smaller roads that aren't showing up on the map, but if you get onto SITLA's GIS, you zoom in close to see any smaller roads.

Hi Keli – Quick follow up. I have a few other questions about the disconnection and it occurs to me that my first fundamental question is what the status is with respect to the SITLA property. Has a disconnection petition been submitted at this point for the SITLA property? Is that still in the works? Or am I misunderstanding the chain of events?

Thanks again,

Jen

Subject: Bluff Bench (AES) - Disconnection Proposal

Hi Keli – Quick question regarding the disconnection proposal. I noticed in the disconnection petition for the Acton property that there are no roads involved. Is that the case also for the SITLA land? Are there public or private roads that will be included?

Thanks,

Jen
